## NEW SCHEME TO SAVE CONDEMNED QUARTET

PHOENIX, Ariz., May 14.—On Monday a petition asking that the board of pardons and paroles grant a reprieve to the four condemned Mexicans, now awaiting execution in the Florence prison until after November election, will be presented by Struckmeyer & Jenkins.

Francisco Rodriguez, convicted of murdering his wife, was recently sentenced by Judge Stanford in the superior court of Maricopa county, to hang on Friday, May 19. The other three condemned Mexicans are to be re-sentenced in the superior court of Yavapai county on May 23.

The board of pardons will be asked to grant a stay of execution until after the November election, at which the people of Arizona will pass once more on the question of the infliction of capital punishment.

Should the board of pardons refuse to act in the matter it is stated that Gov. Hunt may be asked to grant a reprieve. It is contended that, though shorn of his power of pardon and of parole, the governor of this state still has the right to grant a temporary reprieve, and that he will be asked to do so in behalf of these condemned Mexicans.

Attorney General Jones said that he could not speak for the board of pardons, but as a member of the board he would oppose any further delay in carrying out the law. "These Mexicans," he declared, "have been seven times reprieved. We have inquired thoroughly into their cases and reached the conclusion that there were no mitigating or extenuating circumstances whatsoever. I do not think the board will reverse its former action, or grant any further reprieves to the condemned men."

## RICH ORE STRIKE AT ECLIPSE MINE

A rich ore strike has recently been made at the Eclipse mine, located in the Steeplesrock district of New Mexico, about 15 miles from Deming. Geo. A. Kalar, president and manager of the company, reports the ore was encountered on the 100-foot level and in a cross-cut about 90 feet from the shaft. The ore body was shown to be five feet wide and six feet thick when Mr. Kalar left the mine Thursday morning, and the extent of the deposit is not known. The ore is of a very high grade and contains much brittle silver.

A contract was recently let for drifting 25 feet on the ore body to determine its extent, and eight men are now at work.

Ore is being broken preparatory to shipping to the smelter, and the first shipment will be made this month.

The Mexican bone of contention, as we understand it, is located in old Whiskeranza's head.

Luke McLuke tells us that the open work wait is back. We will have to look into this matter. That is all.
